Please include a stamped addressed envelope if you would prefer a copy of the results list posted to you.

Access to the site is fairly easy, driving from Fareham follow the A32, keep going past what used to be Fleetlands, to the Frater traffic light, then the next set of lights that direct you to Priddys Hard and the Explosion museum, on the right is Holbrook Ice Rink, go straight on at these lights, on the left is a bus stop, not far from the bus stop is a turning small on the left, there is an Electrical Sub Station there. (if you get to the roundabout you have gone too far) follow the road round, couple of speed bumps into the car park, from the car park you may not see us, you have to walk up the field behind some club huts.
